# Alan Liang

Dublin, CA
liang9046@mydusd.org

## Career Goal

I want to have a career in the Computer Science field

## Personal Skills

- Effective communication
- Ability to stay on task and deliver on time
- Responsible and quick learner
- Excellent team player and leadership

## Technical Skills

- **Client side:** JavaScript, HTML5, Bootstrap, CSS
- **Server side:** Java, Python
- **Database:** SQL
- **Environment & Tools:** Windows, Android OS, Git, Sublime, Greenfoot, BlueJ

## Experience

**Volunteering Tzu-Chi**                                                  2018– Present
- Joined a volunteer group
- Improved teamwork
- Learned about other cultures
- Helped the homeless
- Became more informed about the current events of the world

**Community Service**                                                      2015– 2017
- Cleared up a park
- Pick up trash
- Learned teamwork
- Appreciated nature for once

## Projects

- Pong game Android application: Made an Android application that ran a game of pong.
- Seating chart application: Implemented a seating chart on Greenfoot, where my picture was interactive, had an animation if clicked on, by using Java.
- Python image modification application made collages out of the images given by the user, with an option for the user to add a logo on each image.

# Education

**Dublin High School, Dublin**                                                    2017- Present

- Currently a junior at Dublin High School.
- I'm part of the JV tennis team, and plan on staying on the team for all 4 years.
